

### " Importance of Education in daily life"

We can achieve anything good in the life by using an important tool that is "Education". It's the most important for success in our life. Education empower our mind to conceive good thoughts and ideas . Education is the only one medium that can uproot unemployment, corruption, poverty and environmental problems. Education is not about taking academic degree only,it is about how can we live with our own moral values (decision). Education facilitate our knowledge and skills.All of us learn throughout our llives .our education starts from the day we are born. Education helps us to attain the positive attitude . Academic education play an important role in everyone's life.It play a Paramount role in the modern world . A real ( good ) education gives many purpose to the life such as enhancement of the personality , increase social status , set aim of life and help in development of nation. Now a days education has become very easy because of the distance learning progammes . Education makes us more civilized and better educated .It changes the people's way of thinking by bringing positive thoughts and removing negative thought . Education helps us to understand all the rights , duties and our responsibilities towards country.How we behave with our elders or people is direct reflection (results) of our initial education in our childhood.So,our childhood education helps in the social and physical development of our young children which has direct effect on our overall development . Every child must to go school in his life at appropriate age as it's the fundamentals right of everyone. It is the tool which stimulates everyone to success in life as well as provide ability to overcome challenges.It enable us to create a fine balance of our body , spirit and mind . It brings lots of opportunities to get better prospects required for the career growth . Every individual need a real education to enhance their own living standard as well as being a part of the social and economic growth of their own country . Well being of a country depends on the well being of it's people living in that country . Everything in life is based on the knowledge of the people that ultimately comes from true education .
