

Success Mantra

Someone says, 'Hard work is key to success'. It is right but the most essential ingredient of success is 'Positive Thinking'. It is the power with which we can face all the problems of our life. Second step is 'Self Confidence'. About this it can be said, "The man who wins is the man who thinks he can". So, we should have confidence on ourselves. We should have faith in ourselves and say loudly, "I can do it and I will do it." As it is said by a famous educationist, Ms. Tazeen Jamal Siddiqui, "#we can and we will #" and that is why our forum Vision India is rising to excellence day by day. The third step is strong 'Will Power.' As it is quoted, "Where there is a will, there is a way." It is a magical power that leads you to success in midst of difficulties and helps in crossing the barriers. It is true that if a person holds the will, he will have success definitely. It is your self confidence, faith and determination to win which count and deliver success. "Keep going and never quit" is the fourth step to get success. We should never lose heart and keep going with the hope that one day we will win. Let you arise, awake your spirit, roll the stones of difficulties aside, climb over the fences of obstacles and go straight on to energize your will power with firm determination. So 'Determination' is very important fifth step to get success. Be determined to make success, peace, happiness and serenity your obedient slaves. Success is not merely a question of luck, it depends on hard work, will power, self confidence and determination. So always remember that you are the captain of your soul, the master of your fate and the maker of your destiny. Hence have faith in yourself and go ahead.
